

# **KUMARAGURU COLLEGE OF TECHNOLOGY**

**COIMBATORE 641049**

**(An Autonomous Institution Affiliated to Anna University, Chennai)**

## **BONAFIDE CERTIFICATE**

Certified that this project report “**RATION SHOP AUTOMATION SYSTEM**” is the bonafide work of “**Mr.S.ABUBACKER ASHIQ (13BCS002), Mr.S.AJITH -PRUTHVI(13BCS003) and ASHWIN VELMURUGAN (13BCS018)**” who carried out the project work under my supervision.

### **SIGNATURE**

Dr.P.DEVAKI, Ph.D.,

### **HEAD OF THE DEPARTMENT**

Professor and Head,  
Department of Computer Science  
and Engineering,  
Kumaraguru College of Technology,  
Coimbatore - 641049.

### **SIGNATURE**

Mr.G.KANAGARAJ, M.E. ,

### **SUPERVISOR**

Assistant Professor,  
Department of Computer Science  
and Engineering,  
Kumaraguru College of Technology,  
Coimbatore - 641049.

The candidate with University Register Number **13BCS002, 13BCS003 and 13BCS018** were examined by as in the project viva voce held on \_\_\_\_\_.

Internal Examiner

External Examiner

## ACKNOWLEDGMENT

First and foremost, we would like to thank the Lord Almighty for enabling us to complete this project work. We express our gratitude to **Dr. B. K. Krishnaraj Vanavarayar, B.Com, B.L.**, Chairman, **Mr. M. Balasubramaniam M.Com., M.B.A.**, Correspondent, **Mr. K. Shankar Vanavarayar M.B.A., PGDIEM.**, Joint Correspondent and **Dr. R. S. Kumar B.E (Hons).. M.Tech., Ph.D.**, Principal for providing the necessary facilities to complete the project.

We wish to express our sincere gratitude to **Dr.P.Devaki**, Professor and Head, Department of Computer Science and Engineering, for providing her support and encouragement throughout the project.

We sincerely thank **Mr.G.Kanagaraj**, Assistant Professor, Department of Computer Science and Engineering, for his guidance and encouragement carried out during this project work.

We also wish to express our gratitude to **Ms. X. Francis Jency**, Assistant Professor, Department of Computer Science and Engineering, who rendered her help during the period of project work.

We would like to convey our regards to **all faculty members, non-teaching staff members and friends** for their continuous support.

## **ABSTRACT**

Ration Automation System is used to reduce the burden of manual work which is carried out during the functioning and operation of Fair Price Shop (FPS). From the time these Fair Price shops were brought into implementation and till now the functioning and operation are done manually, so there are lot of drawbacks which comes into the picture some of these include long queues of people waiting, manual billing etc. This is something that is time consuming so a good solution to this would be to automate this system.

The features of this system includes the replacement of conventional Ration card by a Smart card which uses a RFID tag for authentication of valid card holders, System which reduces the man work needed to weigh and provide subsidies to the customers. As soon as the stocks arrive to the Fair Price Shops the details of the items are updated to the family head of the card holders, this reduces the burden of people enquiring about the items from Ration shops.

The purchase details of subsidies for each month can be viewed by the customers for reference with the help of an SMS. If the user is a valid user, the next process takes place and the input can be given in the interface. As soon as the input is given, the products are obtained from the automated ration shop and an SMS is sent to the valid customer holder regarding the purchases made by him/her.
